**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7, drawn to a miniature fuel reformer.

Group II, claim(s) 8, drawn to a miniature fuel reforming system.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the miniature fuel reforming system of Group II (claim 8) lacks technical features of the miniature fuel reformer of Group I (claims 1-7), as the miniature fuel reforming system of Group II (claim 8) includes a fuel preheater and means for controlling pressure of discharged raffinate, both of which are lacking in Group I. Furthermore, Group I includes the technical features of inner and outer housings and a plurality of vertically spaced cylindrical support members, all of which are lacking in Group II. As a result of the lack of the same or corresponding special technical features, no single general inventive concept exists. Therefore, restriction is appropriate.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
